PROFILE SUMMARY

A Software Developer Student with 2.5 years of experience developing interactive web applications. My expertise lies on front end development with solid understanding of backend concepts.

SKILLS

PROFESSIONAL SKILLS

Cross-Cultural | Critical Thinking | Communication | Empathy | Planning
Adaptability | Team Collaboration | Conflict Resolution | Resilience Detail-Oriented

TECHNICAL SKILLS

JavaScript | HTML & CSS | Python | Node.js | MySQL | RESTful API
Intergration

PROJECTS

PHYSIOTHERAPY WEB APP

- Developed a full-stack Physiotherapy Web Application using React and CSS for styling, and Node.js with MySQL database integration. Users can select whether it's a first appointment or a follow-up, book an available slot, and fill out a form. Upon submission, a confirmation email is sent to the user, and all the information is stored in the database.

HABIT TRACKER

- Developed a Python-based Habit-Tracking application with 7 core functions, enabling users to create, manage and store habit while tracking their streaks. All their habits are stored in a JSON file.

AIRBNB CLONE

- Developed an Airbnb-style database in MySQL, managing relationships between guests, hosts, and properties. Included functionality for tracking commissions and salaries

ORDER INFORMATION

- Developed an Order Management System using HTML, CSS, and JavaScript, allowing users to select computer components and view the results in a dynamic summary section.

WORK EXPERIENCE

PHYSIOTHERAPIST

- Helping and Treating patients to improve their quality of life.

BASKETBALL COACH

- Managing competitive individuals and organizing teams to achieve a common goal and promote collaboration.

STRENGHT & CONDITIONING COACH

- Designed and Implemented personalized training programs to help clients achieve their fitness goals
